Categories: [Vases, Jardinières, Planters & Centerpieces](#)

This elegant bronze silver plated jardinière was created in Paris, France, circa 1870. The oblong antique planter sits on small curved feet and leaves, over a scalloped apron decorated with acanthus leaf motifs; it is further embellished with a large shell in high relief and floral decor. The center piece is further dressed with the original removable zinc liner. The oval planter is in excellent condition and adorns a beautiful patinated silver finish throughout. Use this impressive flower vessel filled with fruit to embellish a dining room table or buffet surface. Measures: 16" W x 9.5" D x 6.5" H.
