Decorate kitchen cabinets with this large antique water can. Hand crafted in Normandy France circa 1740, and built of copper, the hammered metal construction gives this watering can a charming and unique character. Designed with a gracefully curved handle and large spout, this watering can adds an aesthetic appeal to any garden themed display. Could be used as a planter or a vase. Item is in rough bad condition commensurate with age and use, and adorns a wonderful patinated copper finish. Holes in the bottom, so mainly used for decorative purposes (see photos attached). Measures: 22"W x 7"D x 13"H
