This elegant kidney shape side table was crafted in France circa 1920. Built of mahogany wood, the petite table stands on slim turned legs ending with tapered feet, decorated with a bottom shelf. The shaped surface is dressed with an inset variegated beige and grey marble top and embellished with a pierced brass gallery. The table has a single drawer across the front dressed with a brass pull. The small table is in excellent condition commensurate with age and use, and adorns a rich walnut patina. Versatile, the antique table could be used as a bedside table, an occasional table next to an armchair, or as a small display cabinet in a powder room. 17.5"W x 11"D x 29.75"H
