Add a touch of elegance to your home with this striking gilt wood sunburst clock, hand-carved in Spain circa 1970. This vintage piece features a central circular dial, surrounded by mirrored insets and a series of radiant, gilded rays—a design rooted in classical 18th-century French motifs. The sunburst style, which became especially popular in the 19th century, was often used as a bold decorative statement in a variety of interiors. With its bold, radiant lines and rich golden finish, this clock captures the timeless appeal of the sunburst design. Though it shows light wear in keeping with its age and use, including a few cracked mirror insets (visible in the detailed images), it remains in good overall condition commensurate with age and use. Additionally, the clock face can be removed and replaced with a mirror to transform it into a stunning sunburst mirror. Whether used as a timepiece or decorative wall art, this eye-catching piece is sure to enhance the beauty of any living room or hallway. Measure: 21.25" diameter
