Decorate a room with vintage copper urn-shape planter. Crafted in Spain circa 1950 and built of hammered copper, the planter features a wide, slightly flared rim and a narrow neck, which smoothly transitions into the larger, bulbous body. Its surface is simple, without ornate details, allowing the natural beauty of the copper and its texture to stand out. The body of the urn has a subtle, warm patina that highlights its age and craftsmanship, reflecting light in soft, amber tones. The planter with classic rounded form is in excellent condition and adorns a wonderful patinated finish, exuding a timeless charm, ideal for adding an antique touch to any interior or garden space. 23" Diameter 30" H
