Add an air of drama and elegance to your home with this elegant pair of antique candlesticks. Crafted in Italy circa 1880, each candle holder stands on a tripod base ending with scrolled feet; the tall decorative fluted stem is embellished with hand carved leaf motifs. The detailed candlesticks flaunt their beautiful, original two-tone polychrome light grey paint finish with gilt and silver accents. Both lights are in excellent condition with a rich patinated painted finish. Measures: 10" W x 10" D x 27" H.
