Categories: [Vases, Jardinières, Planters & Centerpieces](#)

These elegant colorful vases were created in China circa 1960. Standing tall, the large vessels feature a flared rim and a tapered square body. Each body is adorned with vibrant Chinese figures and horses motifs, characteristic of traditional Chinese design. The bodies of the vases are predominantly turquoise, with intricate hand-painted decor in rich hues of pink, green, and yellow palette. The necks and rims feature detailed geometric patterns in soft green, yellow, and blue, accentuating the overall ornate appearance. The tall porcelain vases are in excellent condition commensurate with age and use. The vases could easily be placed on either side of a mantel or atop of a console. Honorific Kangxi style six character mark on the underfoot for further authentication. 5.5" Diameter 18.5" H
