Decorate an entryway or hallway with this elegant pair of antique consoles. Crafted in France circa 1960, each table stands on double iron cabriole legs, connected at the base with an intricate bottom stretcher. The bombe front is embellished with scroll and floral motifs throughout. The surface is dressed with a shaped variegated beige marble top following the contours of the console and decorated with ogee edge. Both tables are in excellent condition and adorn a rich patinated verdigris painted finish; the consoles could also be used outdoor on a patio. Measures: 39"W x 20"D x 34.5"H.
