Decorate a patio or covered porch with this colorful set of two of antique bistrot tables with mosaic tops. Crafted in France circa 1920, each table sits on three iron scrolled legs connected with a round center stretcher. One tabletop features a pattern made up of alternating yellow and blue tiles in a geometric, checkered style. A border of small diamond shapes surrounds the central design, adding depth and framing the pattern. The other table top showcases small, dark blue octagonal tiles arranged in a honeycomb-like pattern; they are bordered by a circular band of yellow tiles, creating a sharp contrast. The outermost border showcases a decorative pattern of alternating yellow and blue diamond shapes, adding visual interest and framing the central design. The elegant tables are in excellent condition commensurate with age and use, and are suitable for outdoor or garden spaces. 23.75" Diameter 29.5" H
